Applicant's PETITION and COMPLAINT dated 20.12.2000

Dear Sir,

Once again I have cause for worry in that I have not yet received any response or acknowledgement concerning my petition dated 20.12.2000. Allowing for the holiday period, I believe that after a period of over 2 months since its transmission with no word from you I now have further just cause for complaint.

In view of the enclosed copies of the faxed transmission with certification of its receipt in your offices I can only assume that it has gone astray.

As Annexes 1-5 therefore, you are now in possession of a further entire copy of the original transmission with the added certification of its receipt as well as the original attachments (Annexes 1-3).

Annex 6 is a copy of the envelope that contained your original office action advising me of the abandonment of my application 09/646,764. This is proof of one my original complaints concerning your unacceptable mailing procedure as well as the fact that there is no evidence of any true mailing date.

I look forward to receiving your timely acknowledgement of the receipt of this letter.

Peter A Miller  
Inventor and Applicant
